

## MASTERFLUX

From: North American Marketing Team  
 To: All Customers (All Regions)  
 Date: May 21, 2015  
 Subject: Alpine Compressor Series Phase Out

### PRODUCT BULLETIN

Dear Valued Customer,

Masterflux business has made the decision to discontinue production of our **ALPINE** rotary compressor series, harness and controller, typically used in mobile and transport applications (R134a, capacity of 34,000 Btu/h).

#### Description of Change and Timing

Final production for the Alpine Series will be completed no later than end of August, 2015.

Masterflux will offer customers an opportunity to place last time buy orders between now and Monday, July 20, 2015 for shipment no later than Wednesday, September 30, 2015. Last time buy products include;

Masterflux Part Number	Description
14944426	ALPINE08-2750Y3
ALPINE00002	ALPINE08-2750Y3 W/ FITTINGS
025F0093-03	150-300 VDC Controller (212-420 VDC)
14955756	Compressor Harness

#### Future Orders and Shipments:

- All new orders will be non-cancellable and fully released for shipment upon completion of production (non-returnable).
- All business which is currently served through EDI forecast and blanket purchase orders will need to be transitioned to firm purchase orders.
- Orders will be based on capacity and availability of components.
- Orders will be accepted on a first-come, first-served basis.
- Date for last order acceptance: **July 20, 2015** (no orders accepted after this date)
- Masterflux Customer Support and Sales Representatives will confirm acceptance of orders and provide shipment details.

Masterflux appreciates and values our business relationship and looks forward to your continued interest in our products. We apologize for any inconvenience this announcement may cause.
